CAREER OBJECTIVE

Motivated SQL Developer fresher with strong hands-on knowledge of SQL and PL/SQL, including query optimization, stored procedures, and data validation. Trained in developing database solutions to support reporting and analytics. Seeking an entry-level SQL Developer role in the banking domain to contribute to secure, high-performance data systems and grow as a database professional.

Database & Programming

- Strong knowledge of SQL with hands-on experience in complex SELECT queries, joins, subqueries, and filters
- Good understanding of DDL, DML, DCL, and TCL commands
- Experience in creating and using views, indexes, constraints, and data validation techniques
- Knowledge of aggregate and analytical functions
- Good understanding of PL/SQL block structure, variables, loops, and conditional statements
- Developed stored procedures, functions, and basic packages
- Worked with implicit and explicit cursors
- Implemented exception handling for error management
- Basic knowledge of triggers, collections, records, and dynamic SQL
- Familiar with query performance tuning and indexing concepts
- Familiar with preparing data for reporting and audits.

TECHNICAL SKILLS & TOOLS

- ORACLE SQL
- ORACLE PL SQL
- MS Dynamics 365, Power Apps
- MS Office (Word, Excel, PowerPoint)
- Documentation & Reporting
- Linux
- Git
- GitHub

EDUCATION

Bachelor of Science (B.Scs.) – Computer Science | 2022
Sri Gowthami Degree & PG College, Acharya Nagarjuna University
CGPA: 7.0

PROJECTS

Project 1: Vehicle Service Management System

Technologies: MS Dynamics 365, Power Apps

- Assisted in customizing entities, forms, and views
- Created basic workflows and business rules
- Supported testing, documentation, and user support
- Helped track and resolve application issues

Project 2: Cloud Sourcing System

Technologies: SQL, PL/SQL

- Developed SQL queries for transactional and reporting data
- Created basic PL/SQL procedures and validation logic
- Implemented exception handling to ensure data integrity
- Practiced performance-aware query writing using joins and indexes
- Assisted in preparing datasets for reports and audits

CERTIFICATIONS

- **SQL Certification – Simplilearn**
  (DDL, DML, Joins, Subqueries, Constraints, Stored Procedures, Indexing Basics, Query Optimization Concepts)

KEY STRENGTHS

- Quick learner
- Strong analytical and problem-solving skills
- Good communication skills
- Adaptable to new tools and technologies
- Strong interest in database and banking systems

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge.
